Your present name Pradeep contains numbers 38 and 33 and 7. The number 38 is good. The number 33 indicates health problems, career problems, and loss of money. The number 7 indicates spiritual growth. There will be less worldly comforts. Hence, we have to change your name. We just added 'h' into your name and the best and luckiest name for you is:

Advice to get the good results of your new name

The following exercise should be done every day either in the morning or evening with peace of mind (not in hurry-burry manner) by the person who is getting the new name.

People change their names with an intention to achieve success in the life. But they often forget to use their new name. Remember, if you changed your name, you should start using it immediately. Strictly, ask your friends and neighbors to call you with your new name. Get your visiting cards and name plate printed with this new name. In the following paragraphs we discuss an exercise to program your mind so that it accustoms to your new name and achieves its positive effects soon.

Take a white paper of A4 size or a white paper of a long notebook. Take a HB pencil and write your new (changed) name in *Cursive writing* [see the signature in the previous section] on the white paper for exactly 46 times starting from top to bottom. Write the spelling correctly. Do not write more or less number of times. Write on one side of the paper only. Do not write numbers along with your name for counting purpose. It may take several minutes to complete this.

Do the above exercise daily in the morning, before starting your day. Keep that paper in your pocket/wallet. The next day morning, use a fresh white paper and write your name in cursive writing again. While doing this exercise, you should keep your mind peaceful and tension-free. Do this daily

for 46 days. This will make the influence of your new name to come into effect very soon and positive results start coming into your way.

These 46 days completes one course. Give a gap of 2 to 3 days gap and then again repeat the above exercise for 46 days. This is second course. After that give a gap of 2 to 3 days and then repeat the above exercise. When you complete 2 or 3 courses like this, you will get your new name coming into full power.

After a few months, when all the courses are completed, then throw those papers into a river, sea or flowing water (like a canal).

Minimum number of courses recommended: 10.

NOTE: As an alternative, you can also use a ballpoint pen to do the above exercise instead of a pencil.

Using lucky numbers

Your best numbers are: 1 and 2 in that order of preference.

Always you should use 1 as the best number for your house/car/bank account/in any of your transactions. Suppose your car number is AP 09 BL 2116, take only the last 4 digits: 2116 since this number is only used while referencing your car. Find the sum of these digits and make it a single digit.

$$\begin{array}{r} 2 \quad 1 \quad 1 \quad 6 \\ 2 + 1 + 1 + 6 = 10 = 1+0 = 1 \end{array}$$

As its total comes to 1, it becomes lucky number for you. So, this car number becomes lucky for you. And if possible, see that the car color is your lucky colors.

Similarly, the house number or flat number 406 is lucky for you, as $406 = 4+0+6 = 10 = 1$.

Similarly, add all the digits of your mobile number and make it a single digit. If it comes to 1 or 2, then it is lucky for you.

Using Lucky dates, colors and days

Lucky numbers, colors and dates will bring you good luck with their harmonious vibrations. When you are attending an interview or meeting important people or signing important papers, try to schedule these events

on any of your lucky dates. Wear a dress that reflects your lucky color. If possible, see that the event takes place on your lucky day of the week also. When you combine the lucky date, color and day in this manner, your chances of success will increase.

NOTE

- Surname should not be used - means do not introduce yourself with your surname. Also, do not get called with your surname. You can mention surname in the school certificates or legal documents where required but it should not be used in daily life.
- Use your selected new name with the spelling exactly as suggested in this report.
- Remember, there will not be any change in calling your name even if the spelling is changed.
- Use the new name with the suggested spelling on your visiting cards, e-mail accounts, name plate at your home door and office door, stickers on your vehicle.
- Use the new signature in your office registers, banks and other places wherever is possible.
- You need NOT use the suggested new name in legal documents and school and college certificates.
